CITIZENS INPUT TIME

Lori Haus-Bulcock represented the Board of Directors of Cape Coral Wildlife Trust and voiced support for the Old Golf Course taking into consideration what most of the people want – a passive preserve. She mentioned they were excited to be an environmental group who can work closely with the City on the development of the course.

David Hallsey expressed opposition to the Yacht Club parking garage and other development. He referenced the article in today's newspaper regarding the permits and design phrase.

Councilmember Long left the dais at 5:37 p.m.

Marie Kavanaugh expressed opposition to exceeding the Lake Kennedy budget. She inquired if the seawall has been constructed at Jaycee Park. She asked who initiated the stipend. She asked why the Consent Agenda template has been changed: "A Resolution of the Mayor and City Council of the City of Cape Coral, Florida..." She questioned who initiated the Jaycee Park project.

Jeff Lockhart expressed opposition to the stipend although he was in favor of stipends to teachers and single mothers. He mentioned a conflict of interest on one of the Councilmembers for the Redfish Pointe project.

Councilmember Long returned to the dais at 5:43 p.m.

Karen Niece expressed opposition to spending more money in new park projects until the existing projects are completed.

Chris Doyon, resident of the Celebration Cape neighborhood, voiced his concerns about continuing flooding and drainage problems.

Julia Ettari voiced opposition to changing the zoning for more multi-family development and requested to stop spending, finish projects already in motion. She questioned approving a management company to oversee the department and hiring of another Assistant City Manager. She suggested a forensic audit to address salary concerns.

Kyle L'Hommedieu spoke about F.S. 112.311 where public officers are agents of the people and hold their positions for the benefit of the public. He questioned why taxpayers are not involved in voting on the money being spent.

Councilmember Lastra asked for clarification on the comment of hiring additional staff.

City Manager Ilczyszyn explained:

- When he came into the City Manager's Office, there was a vacant Compliance Manager position in our office.
- He repurposed that position into a second Assistant City Manager in order to help him better run the organization.
- One Assistant City Manager is over the line departments.
- One Assistant City Manager is over the Staff departments.
- His peer research of all of the top ten cities shows that we are still the leanest in executive leadership.

Councilmember Lastra commented on Celebration Cape neighborhood. She sent an email to the speaker from Staff that stated we have some updates to do on that utility easement in his neighborhood and requested clarification.

City Manager Ilczyszyn explained:

- Speaker was probably referring to the backyard swale which is on the property of Celebration who is responsible
- Meeting – SFWMD was there and in compliance with their permit

Councilmember Lastra asked the City Auditor about the speaker's comment on being over budget for Lake Kennedy.

City Auditor Russell explained:

- Report on Page 5 - the budget was changed
- Went from 2016 Parks Master Plan of Lake Kennedy Community Park improvements to Lake Kennedy World Center for Tournaments
- Phase 1 and Phase 2 - 16 pickleball courts, 6 tennis courts
- Phase 2 – an additional 16 pickleball courts and 6 additional tennis courts
- 32 pickleball courts and 12 tennis courts from renovations
- Not currently overbudget - Actually underbudget
- Appendix A in the Audit Report – we spent \$11.9M of the \$12.3M current budget
- Started out before amount we quoted in the audit
- Went from \$4.9M to \$12M - we did not audit when project was still in the design phase - Budget at the time we did audit in 2019-2020
- Included findings from that audit in the Appendix in the current audit
- Budget increased 148% because project was no longer just improvements
- It was a whole new design concept completely different from 2016
- We went from fixing around the community park to designing a Racquet Center
- Change reflected in the title of the audit where it wasn't the Lake Kennedy Project
- No recommendation as far as the financial management
- Looked at all the invoices from start of construction
- Not a financial audit, looked at the planning and the closeout process
- Audit is public record on the City website under Government – substantially complete status

Councilmember Lastra commented:

- There will be a Yacht Club update forthcoming.
- Old Golf Course opportunities – making it a Regional Park, public input, upcoming surveys and Town Halls; wildlife concerns

Councilmember Donnell commented:

- Kudos to Staff for work done on the website
- Interviews with the Youth Council applicants
- Cape Coral still in its infancy – challenges building a City
- Podium – gateway to our City
- What are you trying to accomplish in your comments

Councilmember Steinke commented:

- Lake Kennedy - the logic of the numbers
- Yacht Club budget starts with \$10M

- Lake Kennedy initial budgeted amount changed due to changes made to design
- Number would need to change to represent the work that would be done
- Cape Coral housing market not crashing, listing prices have come down to realistic sales prices. We have more listings. Balanced market is six months' inventory.
- Clarified his title is Director of Sales and Business Development with Aubuchon Homes, not a real estate development company
- Report update provided at today's Transportation Advisory Commission - multi-family availability compared to single family homes is almost the same percentage as 9 years ago. Still has 80/20 mix, single family/multi-family, lower percentage of multi-family availability based on our City size.

Councilmember Lehmann commented on Lake Kennedy development.

Councilmember Kilrairie commented:

- Celebration Cape neighborhood – drainage facts
- Not clearly communicated at podium today
- There was a meeting held two weeks ago with Staff participating
- Including those who approved the PDP for the HOA development
- He was requested to participate with them in another meeting, City Manager, Public Works Director
- Meeting with neighborhood set up for next week, never mentioned by speaker, agreed to yesterday
- It may be that there may be some things residents may have to do themselves.
- In addition to what the City may have to look at
- Bringing in management company to do an analysis to try and optimize things within city operations
- Kaizen – continuous improvement process

Councilmember Kaduk commented that she would respond to every speaker but that most persons have left.

Mayor Gunter commented:

- Budgetary and project expansion processes
- Community input and discussion by City Council
- Additional dollars associated with scope of work
- Lake Kennedy – media puts only a portion of information out
- Multi-family development rights

Councilmember Steinke commented:

- Pickleball courts increase not reason for \$4M going to \$12M
- Number that caused increase – do we want to do something more than just brush up the park
- Direction from Council to City Management to go out to bid for 32 courts
- When numbers came back, it made more sense to do it all at once instead of two phases – all done in public view

Councilmember Lastra commented:

- Transparency, conveying facts to public
- Budget review meetings, budget voting meetings

Councilmember Lehmann commented:

- Public interpretation

REPORTS OF THE MAYOR AND COUNCIL MEMBERS

Councilmember Lastra – Topics:

- 4/25 Attended Volunteer Luncheon, very well attended
- 4/27 Attended Nevermind Fundraiser to benefit LARC, Inc. (Lee Association for Remarkable Citizens), adults with disabilities become independent, raised \$12K
- 4/29 Attended along with Councilmembers Lehmann and Kilrairie the United Way Resiliency Hub on Pine Island Road in the Goodwill store - Community Resource Center
- 5/1 Attended the Employee Appreciation Luncheon
- 5/6 Attended Mayor's Scholarship Fund Dinner, Congratulations to all the Scholarship Winners

Councilmember Lehmann – Topics:

- Attended the same events as stated by Councilmember Lastra
- Received several emails regarding non-progress of Chiquita Lock Removal; why are we not moving right along; citizens complaining; contractor dragging their feet

City Manager Ilczyszyn responded:

- We will have Staff develop an email and provide response to City Council.
- What they are seeing is a truck weight limit and hauling requirements.
- Contractor is ahead of schedule.
- Some trucks leaving half full based on several logistics, weight, CDL licensing

Mayor Gunter commented that he has visited the site, most of the dirt removed; concrete seawall needs removal, due date mid-June, and may be completed ahead of schedule. Contractor addressed limited dump trucks.

Councilmember Long – Topics:

- Attended organizational meeting of the Charter Review Commission, introductions, meetings schedule set, appointed Chair and Vice Chair, hold meetings in another venue instead of Council Chambers, will report back on the next meeting

Councilmember Steinke – Topics:

- 4/21 Met with Army Corps, new bathymetric survey equipment demo on riverfront
- 5/1 Attended the Annual Employee Appreciation Luncheon
- 5/6 Attended Mayor's Scholarship Fund Awards Dinner
- 4/29 Attended meeting with one of our Board of County Commissioners as keynote speaker, thankful for getting us Tourist Development dollars for all the work we do for tourist support and attraction; asked for some help as it related to the beautification of Del Prado Blvd, joint effort between County and City; during CTAC meeting this morning there was discussion in the past with the County; CTAC voted to bring to Council to **see if Council would be supportive to put together a joint effort to beautify the median on Del Prado Blvd**. Looked for consensus on behalf of CTAC

Mayor Gunter asked if he wanted this to go to a COW meeting.

Councilmember Steinke explained the indication was that we talked about this with the County but never got serious. Need to talk about money. Will need to be on an agenda when they meet with County officials in interlocal conversations.

Mayor Gunter mentioned there was no mulch put down by the County, and they have not been maintaining it now. Need some type of agreement that County would maintain it.

Discussion held regarding:

- Someone does the capital improvements, and the other party maintains it
- \$4M irrigation improvements pending on Del Prado
- Partnership potentials
- Trees and shrubbery look good, but no new mulch
- Discussion for the next COW

City Manager Ilcyszyn responded:

- Contacted the County twice in the last two weeks.
- County aware of the situation.
- Notified that County does not have mulch in their contract for roadway maintenance
- County trying to find a way to address at least that aspect
- Irrigation system is broken
- Will be a discussion to try to get them to align priorities that County has on their road with what the City would like their priorities to be
- Understand request they would make for us to help them with the irrigation cost
- City did an advance on FDOT to help get the road widened and improved
- Maintenance issue – more akin to them asking - would you help us pave the road, would you fix our sidewalk
- Cautious about funding other government deferred maintenance when we have our own deferred maintenance
- Need to continue to work together with them
- Consider FDOT advance – would take away from our transportation dollars
- Will continue discussion with them to find a solution
- If Council desires, he would work with Councilmember Steinke

Councilmember Lastra provided the second for Councilmember Steinke to work with the City Manager to figure out a solution, including Florida friendly products.

Councilmember Long suggested putting a topic on the COW to include several items and put them together as a collective body instead of sending the City Manager. Emphasize our desires to fulfill obligations that they are not currently fulfilling.

Mayor Gunter recommended having conversations with our County Commissioners Ruane and Hamman.

Councilmember Kaduk commented that the last joint meeting between City and County was on March 19, 2014 which was long overdue.

Councilmember Steinke mentioned other topics that could be discussed with the County such as interlocal agreements and County and City cooperative projects.

Mayor Gunter noted bringing this back to a future COW. Next meeting is pretty filled up. Maybe two weeks from then.

City Clerk Bruns will add that to the list.

City Manager Ilczyszyn asked what the expectation was. Does Administration put together a list or will Council submit a list to the Mayor?

Mayor Gunter responded that the City Manager could bring information to Council such as D&D as an example and possibly Burnt Store Road.

Councilmember Long commented:

- Trash Cleanup on Veterans
- Staff can put together a list of items that we do with the County

Councilmember Donnell – Topics:

Mayor Gunter – Topics:

- Advertise COW meeting for 9:30 a.m. and whenever CRA meeting completed then COW would begin thereafter
- Can we make the change for next COW meeting

City Attorney Boksner explained that we can make this happen for next week and advertise for all future COW to start at 9:30 a.m. after the CRA meetings.

City Clerk Bruns verified all COWs that start at 10:30 a.m. to start at 9:30 a.m.

Councilmember Kilraine, seconded by Councilmember Lastra, to move any of the COWs set for 10:30 a.m. to move to 9:30 a.m.

Council polled as follows: Kilraine, Lastra, Lehmann, Long, Steinke, Donnell, Gunter, and Kaduk voted “aye.” Eight “ayes.” Motion carried 8-0.

REPORTS OF THE CITY ATTORNEY AND CITY MANAGER

City Attorney: No report

City Manager Ilczyszyn announced:

- Water shortage in the Northeast - door hanger to be provided as a first time and informational package; double-sided and English/Spanish; Postcard with QR Code that could also be read
- Press Release put out today - commentary being discussed, questions asked
- Facts – since September when we turned over the wells to County, 100 wells redrilled in the entire Northeast
- Reason for shortage and to monitor
- Guide to public to ask realtor questions about well depth; when the last time pump was changed; have you checked the depth of the well and maintenance
- Ask realtor if there is a permit on file for this home to be off well and on irrigation
- Getting information and disclosure out to the public
- Older homes need this type of disclosure
- Working with industry
- Focus on direct messaging to help us all with this issue

Mayor Gunter commented on addressing what we are going to do with UEP in that area. He inquired if that would be a discussion at the May 28th COW.

City Manager Ilczyszyn responded there would be additional solutions and would bring forward to the last COW before City Council goes on hiatus.

- Completed about half of 120 square miles of the City
- Averaging about one square mile per year
- 120 miles of linear pipe being installed in North 1 West
- Magnitude of the project to dig roads and to get supplies
- Other options that would be presented to Council before hiatus

Councilmember Donnell inquired why are new businesses and homes being built where we are experiencing this crisis.

City Manager Ilczyszyn responded those new wells are being dug deeper and accessing a different source of water, not the aquifer that we are experiencing issues.

Councilmember Kilraine commented that the new wells still have good potable water.

City Manager Ilczyszyn explained we are not out of water, it requires a deeper well, more pipe, horsepower; we are out of cheap water.
